**Soft Skills** Problem-solving, Collaboration, Communication, Adaptability, Self-driven Learning.

**Tools** Git, MySQL, VS Code, Google Cloud, Linux Docker Postgress, MongoDB.

## EXPERIENCE

---

**Associate Software Engineer in Test**

Sep 2022 - Feb 2023

Infuse Consulting Ltd.

*Panaji, Goa*

- Developed proficiency in Ruby, Python, Flask, Selenium, CI/CD tools (Jenkins, Git), and cloud deployment (AWS) through hands-on training and project implementation.
- Completed rigorous training in software testing principles, including performance testing, test case design, and quality assurance processes (ISO).
- Got hands-on experience in **Selenium**, **Automation** , **Manual** , Performance and **API** Testing.

**Jr. Software Developer**

Mar 2023 - Apr 2024

Umang

*Panaji, Goa*

- Developed and maintained healthcare-focused web applications using **CodeIgniter**, **PHP**, **HTML**, **CSS**, **JavaScript**, and **Bootstrap**, prioritizing **data privacy** and **accuracy**.
- Optimized application performance by designing complex **SQL queries** and building **RESTful APIs**, utilizing **Postman** for testing.
- Fixed problems and added new features to **PHP projects**, delivering them on time and making clients happy.
- Automated tasks using **cron job scripts** and enhanced user experience with **PDF/Excel generation**, **email integration** (including **OAuth 2**), and responsive **UI design**.

**Full Stack Developer**

May 2024 – Present

Bluestream.io

*Panaji, Goa*

- Built and maintained scalable web applications using **React**, **Node.js**, **MongoDB**, and **PostgreSQL**, focusing on **e-commerce platforms** (with admin panels) and **pet care systems** (appointment booking and admin management). Utilized global state management with **Redux Toolkit/Zustand** and **React Query** for efficient data handling.
- Designed visually appealing and responsive dashboards for **restaurant analytics** using **Recharts**, **React**, and **Tailwind CSS**, delivering user-friendly experiences with interactive charts.
- Gained hands-on experience with **Docker**, **Linux**, and **VPS management**, while supporting and maintaining legacy **PHP applications** alongside modern systems.
